

INTRODUCTION

A portfolio is a collection of Programs, Projects and or operations managed as a group to achieve organization strategic objectives. Portfolio management is the coordinated management of one or more portfolios to achieve organizational strategies and objectives.

The PMI-PfMP certification recognizes advanced experience, skill and performance necessary to manage and align a portfolio of projects and programs to realise organizational strategy and objectives. The PMI-PfMP certification is pursued by professionals across the world and is setting-up a standard among the professionals.

The PMI-PfMP certified managers oversee the success of one or more portfolios, balance conflicting demands between programs and projects, and allocate resources based on the organizational priorities and capacity.

ACEPRO PMI-PfMP preparation course helps participant develop insights into portfolio management as per PMI Portfolio Management Standard – Edition 3, exam specifics, type of questions that you can expect in the exam and how to apply critical thinking towards arriving at the most appropriate answer

This is an overall integrated, end-to-end course till you get certified as PMI-PfMP. – This includes online Instructor Led Synchronized training, assignments, mentoring, participating in discussions with other participants, application development and leads you to successful PMI-PfMP certification with an about 150-200 hours effort over 3-4 months
